# SACRED CONVERSATIONS ENGAGEMENT

We are facilitators, coaches, and teachers devoted to helping people grow in Christ through conversation. Drawing on both faith and the best of communication science, we create experiences where hearts open, relationships heal, and grace transforms dialogue.

## About Sacred Conversations

For over two decades, we've studied how people grow, connect, and communicate — exploring the patterns of behavior that most deeply shape relationships, vocations, communities, and faith.

Our carefully designed suite of **Sacred Conversations workshops** helps individuals and groups practice the essential conversations that transform hearts, strengthen marriages, and build healthy, grace-filled communities.

In this catalog, you'll discover the key principles and practices that make communication sacred — and explore ways to bring these experiences to your parish, ministry, or organization.

Each workshop stands powerfully on its own, but together they create a holistic formation experience — helping faith communities cultivate community, belonging, and spiritual growth through the power of conversation.
